Looks good. Feels great!

pipetus[®] - akku

Experience the most outstanding pipette controller.

Safe: Reusable safety valve to prevent accidental overfilling

Accurate: Ex/Blow out preselection for exact working with TD and Blow-out pipettes

Informative: Easily readable color I.C. display

Flexible: 5-speed control for ideal pipetting speed

Tight: Conical shaped silicone adapter for absolute tight fit of all pipettes

Exact: Sensitive valve system for precise adjustment of the meniscus

Clean: Hydrophobic PTFE membrane filter with 0.2 µm pore size

Unique: Outstanding power efficiency - by far best of its class in continuous pipetting

Quiet: Noiseless vibration-free pump

Well balanced: Ergonomically shaped handle for your ease and convenience

Ecological: Ni-metal-hydride batteries, cadmium-free with no "memory-effect"

Advanced: Contactless charging technology
